Intelligence Requested:

25X1A

Request (1) blanket scan to determine whether there is any evidence of initiation of construction of a missile defense system around Leningrad similar to that surrounding Moscow. If there is no evidence of a "Moscow-type" system, request notation of any unusual facilities or installations which might be adaptable for defensive missile launching; (2) while scanning for defensive missile positions, note any unusual characteristics of installations or facilities which might be used for surface to surface missile launchings - specifically ~~concrete~~ concreted areas associated with rail sidings or roads, large or unusual bunkered or storage areas.
